

## BOXING REPEAL LACKS VOTES FOR SENATE ACTION

Committee Advocates of Measure Are Two Shy—Attempt at an Amendment Now.

(Special from a Staff Correspondent.)  
ALBANY, April 25.—After two hours of fruitless discussion the Judiciary Committee of the Senate today laid over the Slater bill repealing the boxing law and agreed to make another effort to get the Governor to stand for an amendment rather than for an actual repealing of the law. It had been announced that the bill was reported out yesterday by 8 to 7. In the session to-day the advocates of the act were two votes shy of the required majority.

A small sized revolution started in the Assembly when efforts were made to amend the rules so that the bill could again be reconsidered in that House. The movement never got into the open.

The announcement made yesterday that the bill had been favorably reported seems to have been the result of an informal poll that was given out without the authority of the committee chairman.

"When it seemed that the Assembly would pass the bill," said Senator Boylan, "The Senate was in favor of passing it to prevent any moral back from being passed to the Upper House. The failure of the bill in the Assembly has changed the situation entirely. It is a question whether the bill will pass or not."

Governor Whitman has sent word to bring the bill out, and Speaker Sweet is trying to pave the way for the handling of the measure in the Assembly the moment the Senate takes action.

## SPRING FEVER

Not Due to Germs From Without But to Toxic Poisons Within the Body.

(BY DR. VALENTINE MOTT.)

At this time of the year most people suffer from what we term "spring fever" because of a stagnant condition of the blood, because of the toxic poisons stored up within the body during the long winter. We eat too much meat, with little or no green vegetables. Spinach should be eaten often because it contains 33 per cent. of iron and makes for better nutrition of the blood.

Bloodless people, thin, anemic people, those with pale cheeks and lips, who have a poor appetite and feel that tired, worn or feverish condition in the springtime of the year, should try the refreshing tonic powers of a good alterative and blood purifier. Such a one, which I can heartily recommend, is extracted from Blood root, Golden Seal and Stone root, Queen's root and Oregon Grape root, made up with chemically pure glycerine and without the use of alcohol. This can be obtained in ready-to-use form anywhere, as druggists have sold it for fifty years as Doctor Pierce's Golden Medical Discovery. It is a standard remedy that can be obtained in tablet or liquid form.

A good purge should be taken once a week even by persons who have a movement daily, in order to eliminate matter which may remain and cause a condition of auto-intoxication. To clean the system at least once a week is to practise preventive measures. There is nothing so good for this purpose as tiny pills made up of the May-apple, leaves of aloe and jalap, and sold by almost all druggists in this country as Doctor Pierce's Pleasant Pellets.—Advt.

## LET AMERICA UNITE ERIN AND ENGLAND, PLEA TO THE IRISH

Britain, to Show Good Faith, Should Grant Home Rule, Says John Ford.

To the Editor of The Evening World:  
I speak as a native-born American citizen of pure Irish (Connaught) blood. It is indeed too true that the failure of the British Government to settle the Irish question to the satisfaction of the level-headed majority of the Irish race is a perceptible damper upon the enthusiasm for the war of that important and highly influential element of our population loosely designated "Irish-American."

They are intensely patriotic and wholeheartedly devoted to America, but they find it a bitter pill to swallow to adopt England as an ally, through whose misgovernment of Ireland their ancestors cruelly suffered and whose present vacillating policy—not to call it by a harsher name—still withholds Home Rule from the land of their forefathers.

The American people as a whole have a warm spot in their hearts for Ireland. They have a lively sympathy for the national aspirations of the Irish people and a keen appreciation of their wrongs.

As an American, having in mind the highest interests of my country, I welcome the now inevitable drawing together of our own and the British people. That they should be bound in closer ties politically, socially and economically seems to me to be a manifest destiny.

It would be well for Ireland and the Irish everywhere to consider what they wish their status to be in this new order of things. They cannot indulge their unreasonable hereditary hatred of England and retain the good opinion and friendship of the United States, now the ally and in future the close friend of Great Britain.

The most valuable asset the Irish have in this world is the good will of this country. They cannot afford to lose it. Every dictate of common sense and enlightened selfishness should point out their place—unitedly with America and that will necessarily mean with Great Britain also. We should all let the dead past bury its dead, have a new deal all around and play the game together to the finish for democracy, for humanity and the rights of small nations.

As an earnest of good faith and to dissipate widespread suspicion of its sincerity the British Government would act wisely to do that which is within its power to do at once and without the co-operation of any other nation—meet the just demands of that one small nation which it has so long oppressed. JOHN FORD.

Street Flooding Gives Way.

A five-ton automobile truck loaded with sand broke through the wooden street covering over the new subway at Lexington Avenue and Fifty-second Street this morning. Frederick Usher, the chauffeur, of No. 245 Broadway, Brooklyn, was driving cautiously across the avenue when without warning the planking gave way and the rear of the automobile sank three feet to the roof of the subway. Surface car traffic was tied up for an hour until wrecking crews of the railroad company raised the automobile.

\$8,000 Worth of Japanese Silk Stolen.  
Ten bales of raw Japanese silk, worth probably \$8,000, were stolen from the Spring Valley, N. Y., plant of John Dunlop & Sons Monday.

The thieves have so covered their tracks that the police of New York and New Jersey cities have not found the slightest clue. The company has taken the matter up with the Silk Association of America here.

Dean of Rutgers Resigns.  
Dr. Francis Cuyler Van Dyke, Dean of the Rutgers College faculty, has resigned, and the resignation has been accepted, to take effect June 30, when Dr. Van Dyke will have completed fifty years of service on the Rutgers faculty, and will become professor emeritus of physics.

## PACKET WORK GROWS.

Committee Shipping Soldiers' Comforts Gets Praise at Lord & Taylor's

Through the generosity of Lord and Taylor, the Trench Packet Committee now occupies spacious quarters on the fifth floor of the department store, at Fifth Avenue and Thirty-ninth Street, having moved from the former work rooms at No. 66 West Thirty-ninth Street. The new quarters afford accommodations for a greatly increased number of workers, and this fact has already brought about a great increase in the number of trench comfort packets being made for the soldiers of the Entente Allies and for the prospective American trench fighters.

Under the leadership of Mrs. Mary Hatch Willard, who was a personal observer of the actual need for the packets in the trenches, the Committee has sent to Europe some 10,000 comfort packets. Mrs. Frank W. Garvin has supervision of the work rooms.

War souvenirs, including articles made by invalid soldiers, are for sale, the proceeds being used in making up comfort packets. The committee desires to supply 2,000,000 packets. One dollar is required for each, and contributions in any amount may be sent to Frederick L. Eldridge, Vice

President of the Empire Trust Company, No. 130 Broadway. Articles to go into the packets also are desired. A list of things needed may be had from Mrs. Garvin.

Fought Duel With Hatchets.  
Quarrelling over which had the better stand, two produce dealers in the Williamsburg Hotel, Henry Kiemmer, forty-two, of No. 349 South First Street, and Joseph Tuckman, twenty-five, of No. 314 South Third Street, attacked each other with hatchets early today. The screams of women brought Police-men Doyle and Shaughnessy and after the men, both badly cut about the head and face, had been attended by Dr. Fann of Williamsburg Hospital, they were locked up.

Kills Fellow Guardman.  
SWANTON, Vt., April 24.—Arthur J. Sweeney of St. Albans, a National Guardman, was instantly killed last night by the accidental discharge of a gun held by Private J. M. McConnell. Both were on guard duty at a manufacturing plant. An inquiry has been ordered by military authorities.

German Social Note.  
(From the Charleston News and Courier.)  
It is said to be regarded as a social error to mention the Island of St. Helena while taking tea with the Hohenzollern family.

## The Folly of Taking Digestive Pills

A Warning to Dyspeptics.

The habit of taking digestive pills after meals makes chronic dyspepsia of many thousands of men and women, because drugs and medicines, consisting of artificial digestants, have practically no influence upon the excessively acid condition of the stomach contents, which is the cause of most forms of indigestion and dyspepsia.

It is not enough to merely lessen the sensitiveness of the stomach nerves and thus give a false sense of freedom from pain. If those who are subject to indigestion, gas, flatulence, belching, bloating, heartburn, etc., after eating, would get about an ounce of pure bio-saturated magnesia from their druggist and take a teaspoonful in a little water, after meals, here would be, in most instances, no other necessity for drugs, medicines, again pills or artificial digestants, because bio-saturated magnesia instantly neutralizes stomach acidity, sweetens the sour stomach, stops food fermentation, and thus establishes normal, painless digestion by enabling the stomach to do its work without hindrance.

As there are various forms of magnesia, a sure test to ask the druggist for bio-saturated magnesia, which is the form especially prepared for the correction of stomach acidity.—Advt.

# Stern Brothers

West 42nd Street Between 5th and 6th Avenues West 43rd Street

Very Special for To-morrow, Thursday.

## Women's Silk Dresses

Extremely smart, entirely new and exclusive model, in black, navy or white, with foulard pattern,
